

Shape Bike Instructions

- Color the cut out shapes with markers.
- Match the colored shapes to the bike template.
- Glue the colored shapes onto the template.
- Use markers to decorate around your bike.

Parent Tip:

Shapes are a great introduction to the alphabet. A triangle looks like the letter A. A circle looks like the letter O.

Talking about shapes: "A triangle has 3 sides, but a circle doesn't have any sides!" helps young children build a foundation upon which they'll be able to notice differences among letters.
