

Soup Bowl Instructions

- Color your soup bowl with crayons.
- Color the inside of your soup bowl and add in vegetables, meat, or other soup ingredients.
- Glue noodles to the inside of your soup bowl.

Parent Tip:

Soup is a great meal because you can put anything in it! Have your child make a pretend soup. Give them a pot and have them put anything inside it (crumpled paper, toys, blocks, etc.). Then give them a spoon to stir their soup. Make sure to "taste" the soup when they are done and let them know if it is missing something.
