

Cornucopia Instructions

- Use a marker to write or draw things you are thankful for on your cornucopia.
- Color the cornucopia, apples, pumpkins, leaves, and acorns with crayons (you can color all of them or just a few).
- Cut out the food and leaves and glue them onto the cornucopia.

Parent Tip:

Talk to your child while they make this craft. Explain that a cornucopia is a basket shaped like a goat's horn that has fruits, vegetables, and other good foods inside. Talk about how we see cornucopias a lot around Thanksgiving when we are thankful for all the good food we get to eat. Ask your child what they are thankful for. Ask your child what types of food are their favorite. Is there any other type of food they would like to add to their cornucopia?
