

Bookmark Instructions

- Decorate your bookmark however you want.
- Be creative! You can use markers, paint, stickers, or an other material you can think of.
- Fold a piece of yarn in half. Guide the folded half through the hole in your bookmark. Loop the yarn ends through the folded part of the yarn and pull tight.
- Repeat the previous step with the other two pieces of yarn if desired.

Parent Tip:

This project is very open ended, so let your child be creative! Help them find things around the house that might be fun to glue onto their bookmark. Let them draw whatever they want, even if it doesn't look like "art" to you. Allow your child to use their imagination and express their ideas with confidence.
