

# Toolbelt Instructions

- Color and cut out the tools.
- Slide the tools into the slits in the toolbelt.
- Decorate the toolbelt with crayons, stickers, or other supplies you have at home.
- Tie one piece of yarn to each hole. Tie the yarn together around your waist.

## Parent Tip:

As you make this craft together, talk to your child about each tool they have in their toolbelt. What does each tool do? What could you create with each tool? What noise does the tool make?

You can also discuss other tools that aren't in their toolbelt. Can they name three more tools? What do those tools do? What sounds do they make?
