

Rainbow Instructions

- Cut small squares out of all of the colored strips.
- Glue the squares onto the rainbow page, trying to follow rainbow order (Red, Orange, Yellow, Green, Blue, Purple)
- Glue cotton balls to the bottom of your rainbow for clouds.
- Write (or have a parent write) your favorite color at the bottom of the rainbow.

Parent Tip:

This is a great project to work on color sorting with your child. After they cut all the squares out, you can mix them up and then ask them to put all the red squares together, blue squares together, etc. As they pick up squares to put on the rainbow, ask them each time what color they are putting on and where it goes on the rainbow.
